

VIDIT BHATNAGAR

Cloud & DevOps Trainee | Transitioning from Data Analytics

viditbhatnagar53@gmail.com | +91-9528074459 | Ghaziabad, India | [Linkedin](#) | [GitHub](#) | [Portfolio](#)

PROFILE

Final-year BCA student transitioning from a Data Analytics background into Cloud Engineering and DevOps. Currently building foundational Linux skills and version-control workflows through Git/GitHub, with a strong existing base in Python, SQL, and structured problem-solving from hands-on data projects. Comfortable working with command-line tools, scripting, and data/ETL pipelines — skills that translate directly into automation and infrastructure work. Seeking a DevOps Trainee role to build hands-on expertise in CI/CD, containerization, and cloud platforms under guidance.

TECHNICAL SKILLS

Operating Systems: Linux Fundamentals (command line, file systems, permissions, shell basics) — currently learning

Version Control: Git & GitHub (branching, commits, pull requests, repository management)

Scripting & Programming: Python (Pandas, NumPy, Scikit-learn), SQL / MySQL

Currently Learning: Linux Administration, Cloud Fundamentals (AWS), DevOps Tooling (Docker, CI/CD concepts)

Data & Workflow Foundations: ETL-style data pipelines, data validation, structured troubleshooting, Advanced Excel

Tools: Jupyter Notebook, VS Code, Power BI, Microsoft Office Suite

RELEVANT PROJECTS

SQL Data Cleaning & ETL Workflow — Global Layoffs Dataset

[github.com/VidbTheAnalyst/SQL-DataCleaning-Project](#) | MySQL | CTEs | Window Functions | Staging Tables

- Built a structured ETL-style pipeline in MySQL to extract, validate, and clean 2,361 records using a staging-table process — resolving duplicates, null values, and inconsistent formats.
- Applied CTEs, subqueries, and window functions for data transformation and analysis, reflecting the kind of structured data-handling used in infrastructure and automation pipelines.

Customer Churn Analysis & Prediction

[github.com/VidbTheAnalyst/customer-churn-analysis](#) | Python | SQL | Scikit-learn | Power BI

- Collected, cleaned, and processed a 7,043-record dataset using Python and SQL scripting, applying systematic, repeatable workflows.
- Version-controlled the full project on GitHub, managing commits and documentation throughout development.

E-Commerce Sales & Customer Analytics

[github.com/VidbTheAnalyst/Ecommerce-Analytics-Project](#) | Python | Pandas | MySQL | Power BI

- Processed 4,000+ transaction records with Python and SQL, building automated data-cleaning and reporting scripts.
- Managed project versioning and collaboration workflow via Git and GitHub.

CERTIFICATIONS

- Google Data Analytics Professional Certificate — Google / Coursera | Jul 2024
- Data Analytics Bootcamp — Analyst Builder | Apr 2026
- Advanced Excel Workshop — DUCAT (ISO 9001:2000) | Apr 2025
- Python for Absolute Beginners — Udemy | Apr 2024

EDUCATION

BCA — Bachelor of Computer Applications

RKGIT, Ghaziabad

Expected: Jun 2027

Senior Secondary — Class XII (CBSE)

St. Francis Convent Inter College, Bareilly

Jun 2023
